

EDGE LIT PANELS

Upgrade any fluorescent fixture to LED lighting with minimal modification to your existing infrastructure. LED Flat Panels are ideal, high energy saving lighting with minimal installation time. Each LED Flat Panel is fitted with an efficient long life driver for high lumen output replacement to any traditional lighting.

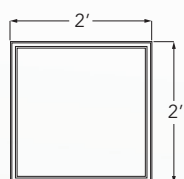

APPLICATIONS

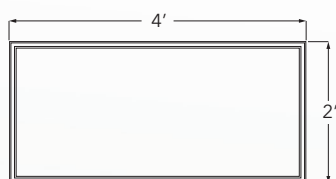

- Indoor Lighting
- Offices
- Warehouses
- Industrial & Manufacturing Spaces

FEATURES

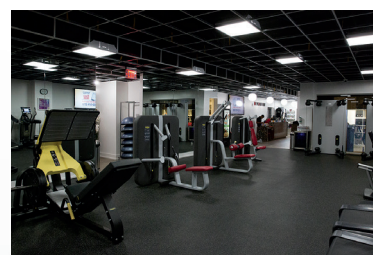

- Free of mercury, lead, and other hazardous materials
- Produces no ultraviolet (UV) radiation
- Full range of dimming from 0-10V
- Ultra thin aluminum housing to provide superior structural integrity, premium appearance, and heat dissipation
