

UNIVERSAL “PLUG & PLAY” LED LINEAR TUBE RETROFIT

The MCLED Lighting High Output Linear Universal “Plug & Play” LED Tubes are mercury free, energy efficient, and engineered to replace existing T12 and T8 fluorescent fixtures. Next Generation Technology has been applied to provide multiple wiring installations including:

- **Single End Power**
- **Dual End Power**
- **Ballast Compatible**

Installing MCLED’s LED lamps are universally wired and work with a majority of fluorescent power supplies if wired using the existing ballast.

High Output with up to 124 Lumens per watt, MCLED’s Universal LED Tube is a leader in LED tube retrofits.

SPECIFICATION FEATURES

CONSTRUCTION

- Integrated Internal Power Supply
- Extruded Aluminum Heat Sink
- High Impact Acrylic Lens
- G13 Bi-Pin Prong Mounting Pins
- LED Type SMD 2835

OPTICS

- Clear or Frosted
- 120° Beam Angle

MOUNTING

- G13 Bi-Pin
- Ballast compatible or Bi-Pass w/ Single & Dual End Power

FINISH

- High Resistant Polyester Power Coat

CERTIFICATION DATA

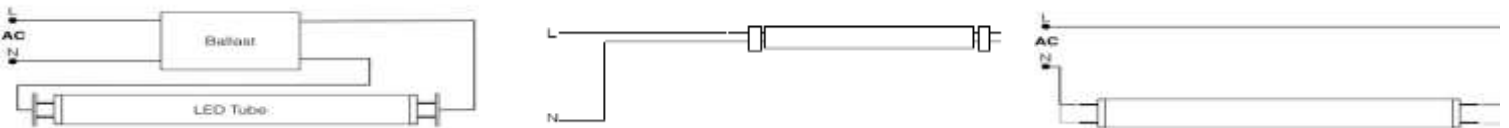

- IES LM 79/ LM80 Tested
- UL/cUL 1598C Certified A & B
- DLC DesignLights™ Consortium Listed
